

## INTRODUCING THE NEW HRV130FLS AND ERV130FLS

### CREATED TO RESPOND TO BUILDER NEEDS

Versatile and designed with the installer in mind, HRV130FLS and ERV130FLS can be installed quickly and easily in medium to large sized homes.

# HEAT AND ENERGY RECOVERY VENTILATION JUST GOT EASIER

## Compact and reversible 180° for greater installation flexibility.

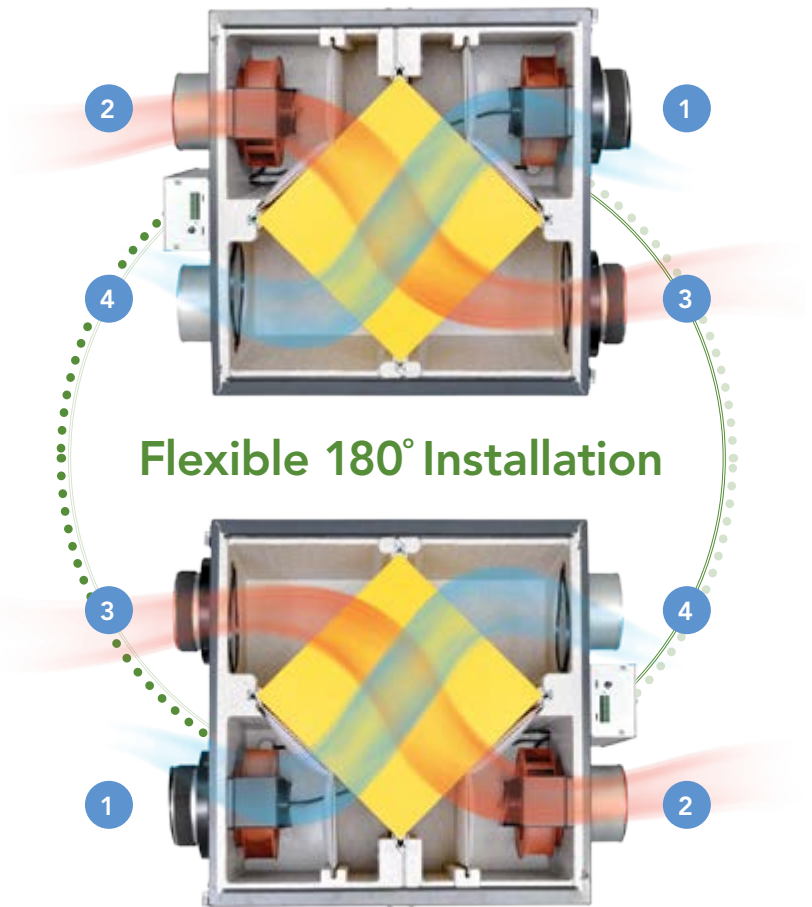

- The ideal solution for medium to large homes.
- Integrated “Snap-in” drain system for the HRV model installs in seconds with no additional parts. No drain is needed for the ERV130FLS model.
- Easy-to-balance, integrated dampers, pressure taps and hooks simplify installation.
- Tested at winter temperatures, the ERV model is a proven performer that keeps the energy you paid for in your home.

Part Number	HRV130FLS	ERV130FLS
CFM at 0.2 in. w.g. / 0.4 in. w.g.	155 / 129	
Electrical consumption	62W	
Sensible recovery efficiency at 32°F	75%	
Apparent sensible effectiveness at 32°F	83%	
Sensible recovery efficiency at 14°F	—	75%
Sensible recovery efficiency at -13°F	60%	
Filtration	MERV 6 MERV 8 (optional)	
Product dimension (in.) (WxDxH)	22 x 13.9 x 22.6	
Warranty on parts / core	5 Years / Limited Lifetime	5 Years / 5 Years
Power cord length	6'	
Control compatibility	VT4W, VT7W, VT6W
