

# WHOLE HOUSE BALANCED VENTILATION JUST GOT A LOT MORE FLEXIBLE.

### Ideal choice for mid to large homes.

- Flippable for installation flexibility
- Powerful intake/exhaust airflow
- Very quiet operation ensures homeowner comfort
- Quick, effective airflow adjustability
- Pressure taps, balancing dampers and straps for insulated ducts ensure quick, effective installation
- Integrated "Snap-in" drain system

### Any way you mount it, Broan's HRV190FLS adds up to fresher air.

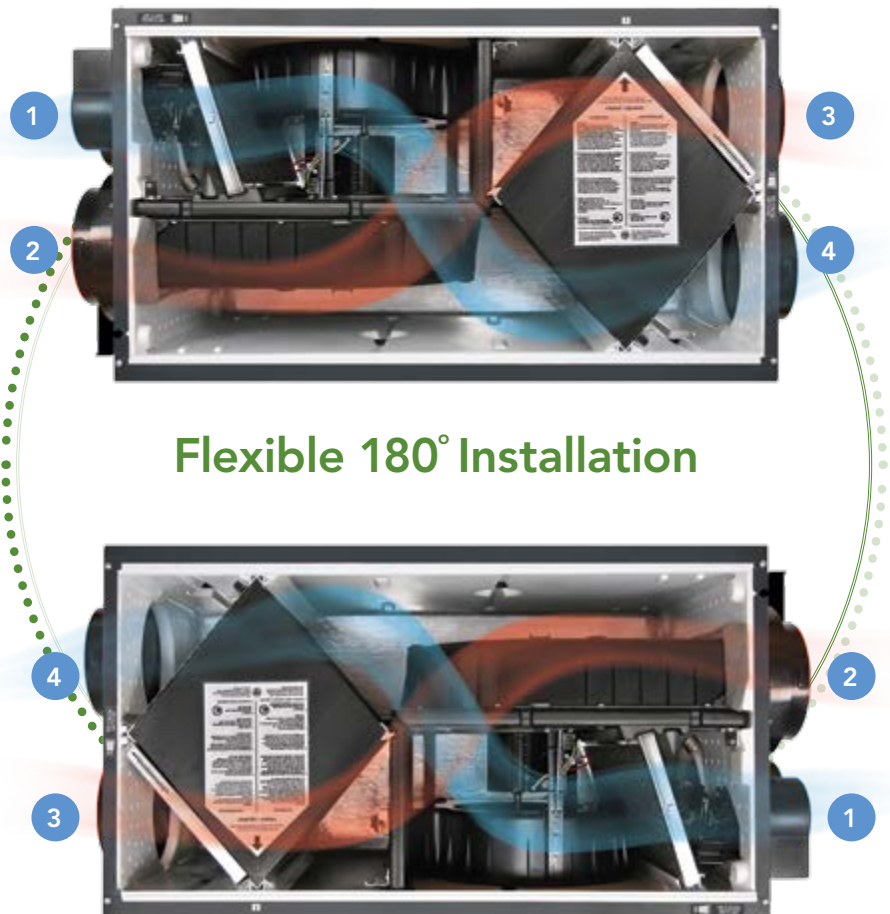

Now any home can have fresh air, more easily. That's because we simplified installation with a 180 degree flippable design, enabling flexible placement in any application saving time and money. Heat is transferred from incoming cold, fresh air to out-going warm air without mixing them. That means 80% of the energy you paid for stays inside. Humidity levels are also optimized to ensure greater comfort. Step up to fresh, filtered air and a more comfortable, healthier environment.

Model number	HRV190FLS
Ports location/size	Side Flippable/6"
Min/max continuous airflow (CFM at 0.2 w.g.)	82-215
Min/max continuous airflow (CFM at 0.4 w.g.)	82-192
Electrical consumption	71W
Apparent sensible efficiency at 32°F	75%
Sensible recovery efficiency at 32°F	65%
Sensible recovery efficiency at -13°F	60%
Filtration	15PPI Washable
Product dimensions (in.) (HxWxD)	17 x 35 x 18
Defrosting system	Recirculation
Warranty on parts/core	5 years/ Limited lifetime
Weight (approx)	65lb. (29.5kg)
Control compatibility	VT6W, VB60W, VT4W, VT8W, VT7W
